

Full-time position available for a Clinical/Staff Pharmacist at Grand Itasca Clinic to accommodate the expansion of pharmacy services. Our pharmacists are recognized and respected members of the health care team. Decentralized pharmacists are responsible for therapeutic drug monitoring, renal dosing/monitoring, antibiotic review, laboratory value monitoring and therapeutic recommendation, parenteral nutrition service, pain management, medication use improvement activities, and promotion of cost effective therapies. Qualified candidates must have graduated from an ACPE accredited college of pharmacy and have an active MN license.

Grand Itasca Clinic and Hospital is one of rural Minnesota's few independent, multi-specialty health care facilities. Located in Grand Rapids, Minnesota, it has more than 50 physicians specializing in family medicine, internal medicine, orthopedics, pediatrics, anesthesiology, cardiology, urology, otolaryngology, pathology and obstetrics and gynecology. Designed with high-quality, seamless patient care in mind, Grand Itasca Clinic and Hospital offers the community the latest in advanced medical technology and treatments and one of the most welcoming health care environments available.

Come join our team! These are exciting times at Grand Itasca Clinic & Hospital now in our state-of-the-art facility, an innovative, growing medical staff and commitment from the community. We offer competitive salaries and benefits. Interested applicants are encouraged to apply by email to sandy.harling@granditasca.org or by resume to Grand Itasca Clinic & Hospital, Human Resources Department, 1601 Golf Course Road, Grand Rapids, MN 55744. Fax 218.999.1461 or call for an application at 218.999.1677. Visit our website at www.granditasca.org .
