

Lakewood Health System, Your Home for Healthcare, is seeking a CLINICAL PHARMACIST to join our growing healthcare system. The CLINICAL PHARMACIST will participate in the delivery of pharmacy services to a variety of customers each day, including performing kinetic drug dosing, nutrition support and outpatient infusion therapy services (including oncology). The Clinical Pharmacist will participate in interdisciplinary teams for pain management, palliative care and hospice. Duties also include oversight of traditional dispensing activities which are supported by the use of Omnicell cabinets, and assisting in providing retail pharmacy services within the 'closed door' pharmacy for employees, long-term care residents and hospice clients.

Qualifications: Graduate of an accredited College of Pharmacy and current state license with the MN Board of Pharmacy. Interpersonal skills are required to interact effectively with physicians, staff and patients. Doctor of Pharmacy degree or 3 years of hospital experience is preferred.

We offer our employees a positive work environment, competitive pay and benefits including:

- Flexible Time Off Plan
- Health, Life & Dental Insurance
- Dental/ Optical Cash Benefit
- Employer 401K Contribution

For detailed information and application instructions, visit our website at: www.lakewoodhealthsystem.com or call our Job Line at (218) 894-8555.
